

ISO 22716:2007 Certification

UL's accredited ISO 22716 management system certification complements an organization's commitment to quality and consistency in the cosmetic industry.

ISO 22716 offers a Guideline on Good Manufacturing Practices for cosmetic products. These guidelines offer practical advice regarding human, technical, and administrative factors affecting product quality.

UL offers Certification to the ISO 22716 Standard. UL is accredited by the American National Standards Institute (ANSI) to provide audits and inspections against the ISO 22716 International Standard globally.

UL's accredited ISO 22716 cosmetic management system certification service helps organizations mitigate risk and protect brand value, while providing confidence to Brand Managers, Retailers and Consumers.

Brand Managers, Retailers, and Vendors rely on UL's audit report and Certificate of Conformance. UL's ISO 22716 Cosmetic audits provide essential information that enables an organization to make informed decisions, directly impacting brand credibility and product marketability.

Competing successfully in the global marketplace requires a commitment to continual improvement and conformance with International Standards, which are intended to assure that an organization adheres to Good Manufacturing Practice (GMP) guidelines. ISO 22716 Certification helps demonstrate an organization's success in understanding and implementing international cosmetic guidelines.

Along with the ISO 22716 Cosmetic Certification, UL also offers a Certification to the FDA's 2008 Guide to Cosmetic GMP.

Since 1894 UL has been a respected leader in safety science. Today UL is advancing its commitment to protecting people, products and places through expert advisory and independent quality assurance testing, inspections, and assessments for a wide range of consumer products. Our network of more than 152 laboratory testing and certification facilities in 40 countries helps drive the integrity of global supply chains, optimize product performance and protect brands.
