

UL's Responsible Sourcing Solutions

UL's Responsible Sourcing solutions can support manufacturers, brands and retailers in advancing their sustainable business practices within global supply chains.

We execute our mission by:

- Delivering auditing and advisory services that meet the evolving needs of the marketplace,
- Being a trusted advisor and thought-leader to clients and other stakeholders,
- Empowering trust in a complex world.

UL has provided auditing and advisory services to more than 500 retailers, brands, and suppliers. Our employees represent over 30 nationalities and languages. Our global footprint covers 120 countries, where we conduct over 20,000 social assessments each year. We can quickly deploy resources to offer service in newly emerging markets.

UL recognizes that a global supply chain presents a unique set of challenges in assessing sustainable practices across different regions and products. The composition of multi-tier supply chains adds an additional layer of complexity to monitoring efforts.

Empowering Trust™

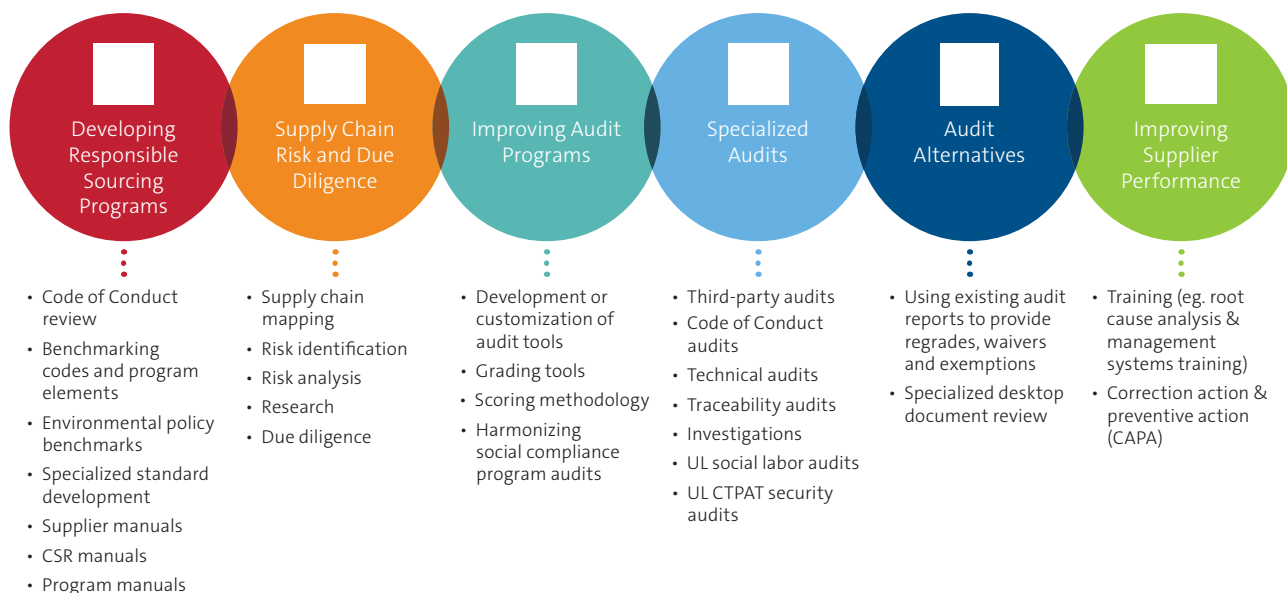

Our Responsible Sourcing Services

UL offers clients a full portfolio of responsible sourcing services to address the evolving needs of the marketplace.

We take a customizable and holistic approach to support our clients in developing their responsible sourcing program based on client's unique business strategy and supply chain.

UL Responsible Sourcing services consist of six pillars:

Responsible Sourcing Audit Programs

Drawing on 20 plus years of industry leadership experience, UL provides tailored solutions to responsible sourcing challenges across a variety of industries and regions.
