

Improve your social responsibility with UL's responsible sourcing program and remediation services

Our comprehensive solutions for your global supply chain

A global supply chain presents a unique set of challenges in assessing sustainable practices across different regions and products.

The composition of multi-tier supply chains adds an additional layer of complexity to monitoring efforts.

UL can help simplify your monitoring effort through our responsible sourcing program, which consists of six pillars:

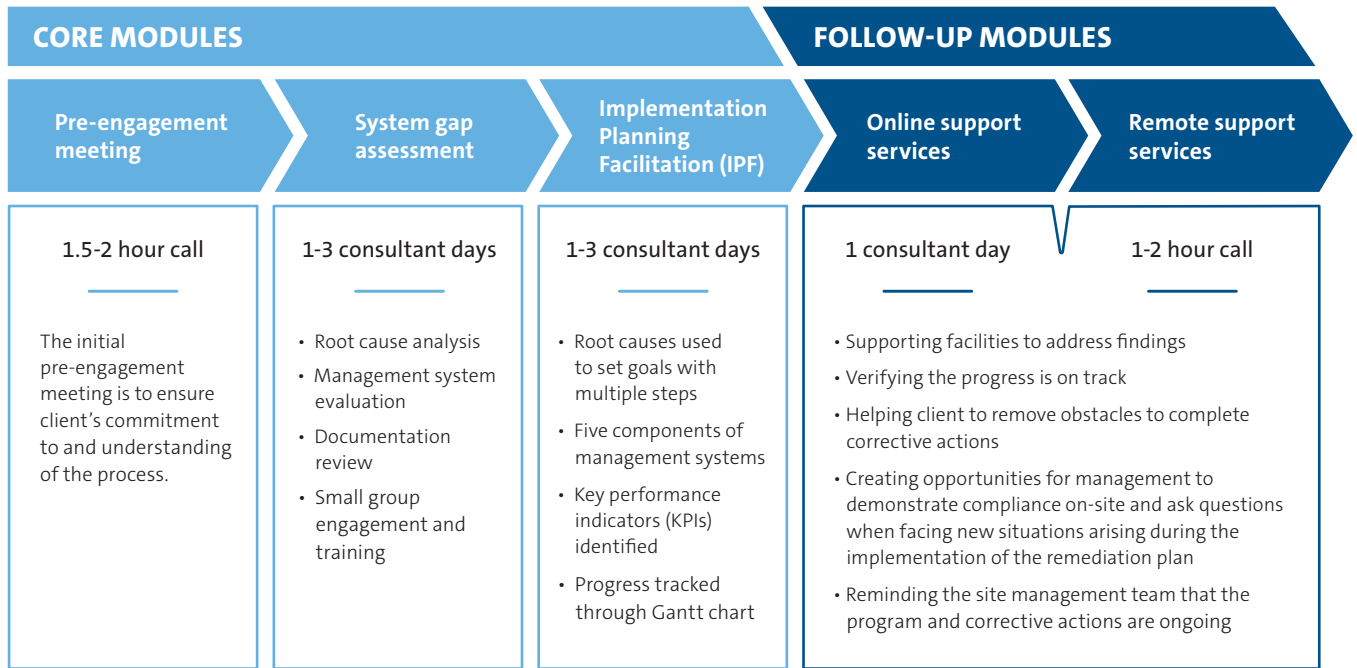

UL's remediation services

UL's remediation services help companies improve social responsibility performance by assisting management personnel to improve overall performance related to responsible sourcing.

We help companies identify the root causes behind audit findings and building systems to prevent problem reoccurrence.

The modular approach of UL's remediation services
