

Safety of toys

KEY LEARNINGS FROM 2019 EU RECALLS

According to the 2019 Safety Gate report issued by the European Commission, 29% of recalled products in the EU are toys. **But why?**

UL wants to provide you with:

- An overview of the potential dangers involving toys, identifying common risk categories
- An understanding of the details to pay attention to when designing products
- Suggested testing packages to help minimize the potential risks associated with toys

Click on the risks to know more.

For a dynamic use of the document, please make sure you are connected to the internet.

For more details on how UL can help you ensure the safety of your toys, please contact toys@ul.com and visit [CRS.UL.com](https://www.crs.ul.com).
